OBJECTIVE:

To secure a **Web Application Development position** with an agile, dynamic organization where my extensive experience and knowledge can be used to create valuable, useful Internet applications and websites.

PROFESSIONAL PROFILE:

Internet Application Developer – Talented and motivated Internet Application Developer capable of building all aspects of a web application, including front-end presentation and interface, server-side and client-side scripting, and back-end databases. A strong blend of technical and interpersonal skills allows for effective communication with users. Attention to detail and strength in object-oriented programming logic and syntax lead to the creation of powerful applications. A sharp eye for aesthetics, visual appeal and usability result in exceptionally functional and intuitive user interfaces.

SKILL SUMMARY:

- ColdFusion (4 years)
- SQL (9 years)
- MS SQL Server (5 years)
- JavaScript (5 years)
- CSS (6 years)
- ASP (Active Server Pages) (5 years)
- Adobe Photoshop (8 years)
- Adobe Dreamweaver (5 years)
- AJAX (2 years)
- PHP/mySQL (3 years)
- Quickbooks Pro (1 year)
- Photography (9 years)
- Excellent written and oral communication skills

PROFESSIONAL EXPERIENCE:

Web Developer, Transition Coalition
School of Special Education, University of Kansas
September 2010 – Current

- Skills used: php/mySQL, Photoshop, CSS, SQL, JavaScript, Dreamweaver
- Managed and developed website (<http://www.transitioncoalition.org/>), an interactive educational tool to assist secondary educators and college students in learning how to teach students with learning and developmental disabilities
- Designed and built a website (<http://www.rec2reality.org/>) designed to provide special education students a tool to help them bridge the gap from playing video games at home to integrating those physical and social skills into the real world.

Internet Manager, Mike Steven Automotive Group
March 2010 – July 2010

- Skills used: php/mySQL, Photoshop, CSS, SQL, JavaScript, Dreamweaver, Flash, Photography
- Managed and developed online presences for major auto manufacturer dealerships in Wichita including Volkswagen, Infiniti, Kia, Mitsubishi, and more
- Managed and developed online presences for ancillary Mike Steven enterprises

- Developed system to automatically link dealership inventory system to websites so that inventory listed on sites is always current

**Managing Editor and Staff Photographer, NakedCity Magazine/GreenTangerine Publishing
Web Developer, GreenTangerine Creative**

January 2009 – March 2010

- Skills used: Quickbooks, Photoshop, PHP, CSS, SQL, JavaScript, Dreamweaver
- Managed all finances and bookkeeping for GreenTangerine Publishing with Quickbooks, including invoicing and AR/AP
- Built & deployed new website (<http://www.nakedcitywichita.com/>) using a deeply customized version of Wordpress
- Coordinated monthly meetings with freelance writers and photographers to plan each issue
- Created and sent weekly e-mail newsletters to subscribers listing weekend events and driving traffic to our website with links to articles and other content
- Moderate proofreading and editing of articles
- Fashion, documentary, and lifestyle photography for articles, advertisements, and websites
- Built and deployed client websites for GreenTangerine Creative
- Represented the magazine on social media platforms including MySpace, Facebook, and Twitter, using those platforms to engage readers and drive traffic to the website
- Many other miscellaneous duties as required

Senior Web Developer, Aeroflex

July 2007 – November 2008

- Skills used: ColdFusion, SQL, CSS, JavaScript, HTML, Photoshop, Dreamweaver
- Implemented a full visual redesign and back-end restructuring of the site, integrating static content into a database-driven architecture and updating obsolete code
- Worked with corporate divisions worldwide to ensure that all content and functionality was in place and current
- Worked with product managers to facilitate all marketing updates relevant to the website, including marketing bulletins, press releases, data sheets, and software downloads
- Built a custom content management system for the site allowing employees from other areas (HR, Marketing, Product Managers, etc) to maintain their own content

Lead Software Architect, INTRAcare

October 2005 – June 2007

- Skills used: ColdFusion, Dreamweaver, SQL, JavaScript, DHTML, CSS, AJAX, Photoshop
- Supported existing web application (“Vitals”) and worked within the existing code structure to enhance the application while preserving existing functionality.
- Quickly learned ColdFusion, becoming fluent in less than six months.
- Managed a wide variety of custom development projects for clients, putting modifications through the full software life cycle of scope definition, estimation of time to complete, development, testing, and implementation.
- Applied a full visual overhaul to the Vitals application, implementing CSS, design, and layout standards, and transforming the site into a visually appealing and easy to use web application.
- Answered tier 2 customer support calls, communicating directly with users and providing timely resolutions.

Internet Systems Developer, Envision

April 2002 – October 2005

- Skills used: MS Visual InterDev, ASP, JavaScript, SQL, SQL Server, CSS, HTML
- Developed and deployed the main informational website (<http://www.envisionus.com>), conforming to graphic design specifications and complying with W3C and Section 508 requirements for accessibility.
- Created custom administrative content management interface which allowed company personnel to maintain the website without any technical knowledge. Examples include front-page articles and job listings.
- Created company Intranet (<http://intranet.envisionus.com>) featuring a multitude of applications for use by company employees. Examples include an application that allowed remote retail store managers to track inventory and e-commerce sales across all stores, and an application that tied into the sales software, allowing sales staff to view clients' sales history and purchasing trends down to the invoice level, both remotely accessible.
- Applied graphic design scheme provided by a third party design firm to the e-commerce website (<http://www.envisionexpress.com>) using the application's built-in template-driven functionality.

EDUCATION:

Associate in Science, Butler Community College

Spring 2010

Pursuing Bachelors in Information Systems and Technology, University of Kansas

Expected graduation: Spring 2014
